Subject: Investigative Work on Rail Bridge Upstream on River Derwent

To all mariners,

Please be advised that investigative work is scheduled to be conducted on the rail bridge situated further upstream on the River Derwent. This work is essential for ensuring the structural integrity and safety of the bridge.

During the investigative phase, mariners are urged to exercise caution and adhere to any navigational instructions provided by the authorities. The presence of personnel and equipment in the vicinity of the bridge may temporarily affect navigation and require alterations to your route.

For your safety and the safety of others, please maintain a safe distance from the work area and proceed with caution when passing through the vicinity of the rail bridge. Additionally, please monitor relevant maritime communications channels for any updates or changes to this notice.

Your cooperation and understanding are greatly appreciated as we work to maintain the integrity of critical infrastructure along the River Derwent.

For further information or inquiries, please contact the Harbour Master.

Phil Scattergood

Harbour Master
