

Port of Workington Annual Performance Review Summary 1st January 2025 to 31st December 2025

The Duty Holder together with Workington Harbour Assurance Committee (WHAC) recognise they have a responsibility under the Ports & Marine Facilities Safety Code (PMSC) to publicly report on the performance of the Port against its Safety Plan for Marine Operations.

The annual report showed that the objectives and key performance indicators set out in the Marine Safety Management 3-year plan (2023 – 2026) for marine compliance, identified a high level of compliance. Therefore, demonstrating that the Port of Workington's marine compliance meets the standard laid down in the Port's Marine Safety Management System and that of the PMSC 2025.

In conclusion the Assistant Director (Corporate Assets, Fleet & Safety) as Duty Holder for the Statutory Harbour Authority, is satisfied with the findings and corrective action that has been identified and taken, to ensure the Port fully complies with the requirements of the PMSC.

On behalf of Cumberland Council
and the Workington Harbour Assurance Committee

Paul Green
Assistant Director (Corporate Assets, Fleet & Safety), Cumberland Council
as Duty Holder for the Statutory Harbour Authority
